# Pioneering Air UV

With UV light, ionizer, advanced filters and interior cleaning up to 61m<sup>2</sup>

### Application area (m<sup>2</sup>)

18 – 31 m<sup>2</sup>, 25 – 43 m<sup>2</sup>, 35 – 61 m<sup>2</sup>

### Air Filters

Activated Carbon Filter, HEPA, Pre-filter

### Sound pressure level (high/med/low) (dB(A))

58/45/26, 58/47/27, 65/51/28

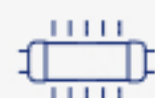

### Dimensions (WxDxH)

347x175x535, 410x210x628, 460x230x710

## Features

## Tech Specs

### UV light

As air passes through the device, it gets exposed to the ultraviolet lamps. Their radiation decomposes the molecular structure of the pollutants.

[READ MORE](#)

### Photocatalyst filter φίλτρο

Deodorizing filter that eliminates unpleasant odors.

### Auto mode

By selecting this function, the cleaner automatically selects the best air quality control speed.

3years

### Carrier warranty

Carrier invented modern air-conditioning in 1902. Since then we are continuously innovating our products to provide you excellent efficiency and energy savings.

### Filter replacement alert

A special indication on the device's control panel notifies you when it is time to replace the filter.

### HEPA H13 filter

The powerful H13 class High-Efficiency Particulate Air filter traps more than 99.95% of airborne particles, such as germs and allergens, ensuring a high quality atmosphere in your indoor space.

### Activated Carbon Filter

Up to 10 times more effective than traditional carbon filters in removing unpleasant odors, including cigarette scent.

[READ MORE](#)

### Air quality light indicator

The device recognizes air quality and its light indicator changes color, depending on the level of air purity: Excellent (Blue), Good (Green), Moderate (Purple), Poor (Red)

### Operation timer

Set the device to operate for 1, 2, 4 or 8 hours, for the best planning of the air purification of your space.

### Ionizer

Releases negative ions to the air, simulating the relaxing effects of forests and waterfalls.

[READ MORE](#)

### Pre-Filter

The pre-filter withholds the largest dust particles suspending in the air, removing them from the air flow before they enter the air-conditioning unit. It covers the air intake and thus helps keeping the unit and the coil clean from dirt and debris, providing better air quality. The pre-filter can be removed and cleaned with soap-water without losing its effectiveness.

### Note

The manufacturer reserves the right to change the characteristics of the products, the elements and the images, without prior notice.
