

Portable PC-12HPPD

Suitable for spaces from 16 to 23m².

BTU/h

12000

Application area (m²)

16 ~ 23 m²

Energy Label Cooling

A

Energy Label
(Heating/average)

A+

Auto Swing

You can select the louvers to move automatically or choose the exact air flow direction using the remote control, as the unit is equipped with motorized air-louvers.

Αυτόματη Επανεκκίνηση

Σε περίπτωση διακοπής ρεύματος η μονάδα επανεκκινεί αυτόματα με τις προηγούμενες ρυθμίσεις.

5years

Carrier Warranty

Carrier invented modern air-conditioning in 1902. Since then we are continuously innovating our products to provide you excellent efficiency and energy savings.

Sleep Mode

This mode saves energy and improves night time comfort. The set temperature will increase by 1°C per hour in cooling mode or decrease by 1°C per hour in heating mode, for the first 2 hours of operation. Thereafter the unit will retain the new temperature for 5 hours after which it will switch off automatically!

Pre-Filter

The pre-filter withholds the largest dust particles suspending in the air, removing them from the air flow before they enter the air-conditioning unit. It covers the air intake and thus helps keeping the unit and the coil clean from dirt and debris, providing better air quality. The pre-filter can be removed and cleaned with soap-water without losing its effectiveness.

Follow Me Mode

A temperature sensor built in the remote controller will sense its surrounding temperature. The unit can adjust room temperature more accurately to the area you place the remote controller, to give you greater comfort.

Energy Save Mode

Intelligent on-off technology enables the unit to automatically enter energy-saving mode when on standby mode.

Note

The manufacturer reserves the right to change the characteristics of the products, the elements and the images, without prior notice.

Self Diagnosis & Auto Protection

Once abnormal operation or part failure happens, the unit will shut off automatically to protect the system. Meanwhile it will indicate protection or error code for fast service.

Timer

Allows you to start the unit at a preset time in the desired cooling or heating mode.
